

Model: Predator EXP

Available Finishes: Black, Candy Apple Red, Topaz Blue, Trans Amber, Trans Black, Trans Purple

FEATURES

- 25.5" scale
- Three-way switching selector
- Sealed diecast tuners, 15-1 gear ratio
- Master volume and tone controls with push/pull tone for single coil operation
- 2 Peavey custom designed humbucking pickups
- Binding on body
- Solid Basswood Body
- Licensed Floyd Rose® double-locking tremolo
- Dual action torsion rod
- Premium AAA quilted maple cap on Transparent colors, hand stained using Peavey's exclusive 4 step deep stain color process

SPECIFICATIONS

Neck Material: North American Rock maple

Bridge: Licensed Floyd Rose® double-locking tremolo

Neck Type: Bolt on, 5 bolt design, shallow oval shape

Neck Pickup: Hum bucking, dual coil, exposed bobbin.

Hardware Color: Black

Bridge Pickup: Hum bucking, dual coil, exposed bobbin.

Body Wood: Solid basswood, 3 pc w' integral center section

Single coil mode on both pickups is available thru push pull. Master

Fingerboard: Rosewood

tone switching allowing multiple tone combinations.

Inlays: 4mm white dots

Frets: 22-frets 2.7mm wide x 1.1mm tall

NECK DIMENSIONS

Scale/Length: 25.5", 22 frets

a. Width at Nut: 1.69" (43mm)

b. Width at Last Fret: 2.25" (57.5mm)

c. Thickness at 1st Fret: .768" (19.5mm)

d. Thickness at 12th Fret: .846" (21.5mm)

Radius: 15"

BRIDGE PICKUP

Peavey USA Design

Construction: Humbucking, Designed specifically for the Predator Bridge position

Magnet Type: Calibrated ceramic magnet, exposed coils

Description: High output, harmonically positioned humbucking, dual coil pickup, 16k dc. Terminated and wound for low noise operation. 4 conductor shielded hookup wire. Calibrated for bridge position. Coils frequency calibrated and metered to enhance midrange and high end response with increased output for cutting solo work and tight low end response. Pickup designed specifically for Predator body construction. High output without harshness.

NECK PICKUP

Peavey USA Design

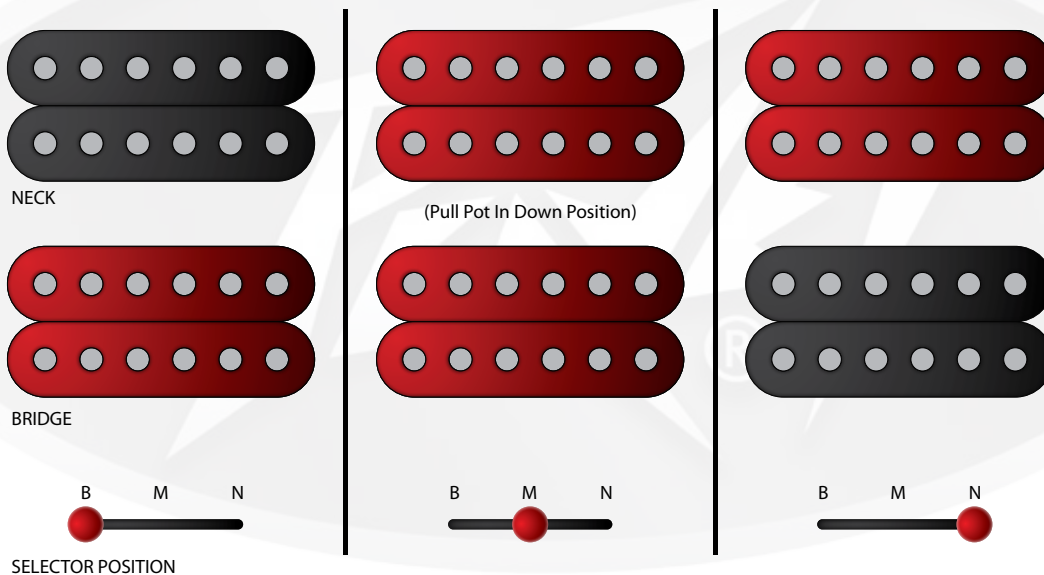

Construction: Humbucking, Designed specifically for the Predator Neck position

Magnet Type: Calibrated ceramic magnet, exposed coils

Description: Specifically designed for Predator neck position, 12k dc. Terminated and wound for low noise operation. 4 conductor shielded hookup wire. Medium high output. Harmonically positioned to enhance harmonics, presence and attack in neck position. Metered coil winding and matched magnetic structure allow increased dynamic range without muddiness at higher volume. This pickup is perfectly matched to the Predator bridge pickup for balanced tone and response.
