

Messenger®

OVERVIEW

The Peavey Messenger® is a complete, portable sound system designed with the compact size and carry-on convenience of a briefcase. At 24" wide, the Messenger is portable enough for business travelers, and since it is completely self contained and sets up in seconds, it's perhaps the one thing you can rely on during those long trips. The Messenger's robust five-channel mixer and 100 Watt output make it ideal for an endless array of applications, from office presentations and meetings to karaoke and open-mic performances. Its top lid also functions as a lectern to hold your meeting notes or song lyrics.
