

Silent Slider™

OVERVIEW

Silent Slider™ is formulated to lubricate and enhance signal transmission on conductive plastics and carbon-based controls. Silent Slider™ will displace contamination accumulated on these conductive plastic surfaces and enhance the transmission characteristics of the switches and membranes.

FEATURES

- Use on conductive plastic switches, controls, membranes and other sliding plastic surfaces
- Lubricates faders, switches, potentiometers and other mechanisms with sliding surfaces
- Maintains optimum signal quality
- Formulated for conductive plastics and carbon-based controls
- Weight Unpacked: 0.45 lb(0.206 kg)
- Weight Packed: 0.45 lb(0.206 kg)
- Width Packed: 2.25"(5.715 cm)
- Height Packed: 5.5"(13.97 cm)
- Depth Packed: 2.25"(5.715 cm)
